Peregrine Falcon

Great Horned Owl

The RMRP inspires the protection and appreciation of raptors and the spaces where they live through excellence in rehabilitation, education and research.

For 33 years, the Rocky Mountain Raptor Program has served the northern Colorado community through rescue, rehabilitation & release of injured birds.

Come to Tigges Farm and meet some of these Educational Ambassadors!

Educational Ambassadors travel to schools, libraries, community events and more to share their stories and inspire the community. They are birds who have come into the center with injuries too severe to be released into the wild. These are very special birds that have shown us they can be around humans without being too frightened. They spend their days as "teaching assistants," teaching thousands of people a year about raptors.

Bald Eagle

Coming to the farm "we hope" (no promises) will be the a Swainson's Hawk & Eagle:

The Eagle! Beautiful, Bold, Boisterous! Eagles live near Tigges Farm and often soar across the fields in search of food. Nothing sounds as beautiful as a Bald Eagle greeting in the morning.

Three Swainson's Hawks

The Swainson's Hawk! Tigges Farm is home to a family of Swainson's Hawks that come every year to raise a family.

See more birds at: 720 B East Vine Drive, Fort Collins, Colorado 80526

Phone to call for visiting hours: 970-484-7756

Emergency On-Call for Injured Birds: 970-222-0322

Visit the Rocky Mountain Raptor Program Website to learn about each of these (and more) Educational Ambassadors pictured here. How they came to the program and much more. You'll love learning about them.

Other Educational Ambassadors:

American Kestrel
